AP GROUP

CONSTRUCTION SOLUTIONS

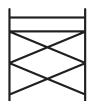

BUILDING INFRASTRUCTURE. SUPPORTING PROGRESS.

AP Group of Companies delivers integrated solutions for construction, infrastructure and industrial projects across Cyprus. Through a network of specialised companies, we provide site mobilisation, access systems, scaffolding, formwork, material handling, mobile access solutions, equipment rentals, portable sanitation, safety systems and advanced thermal insulation technologies.

With a strong commitment to safety, reliability and operational excellence, our teams support projects of every scale, from initial site setup and daily operations to project completion. By combining expertise, equipment and specialised services under one group, we help clients streamline operations and maintain productivity throughout every stage of their projects.

ONE GROUP. MULTIPLE SOLUTIONS. COMPLETE SUPPORT.

SITE MOBILISATION SOLUTIONS

Everything required to prepare, secure and support a construction site before work begins.

From perimeter control and welfare facilities to offices, storage and accommodation, AP Group provides complete mobilisation solutions designed to keep projects organised, compliant and operational from day one.

EVERYTHING REQUIRED BEFORE CONSTRUCTION BEGINS

SITE SECURITY & PERIMETER CONTROL

PEDESTRIAN BARRIERS

- Crowd management
- Site segregation
- Access control

HIGH FENCES

- Secure site perimeter
- Controlled entry points
- Temporary site protection

PREFABRICATED SOLUTIONS

PREFAB FOR ANY USE

SITE OFFICES

MEETING ROOMS

CANTEENS

FIRST AID ROOMS

SECURITY CABINS

STORAGE UNITS

ACCOMMODATION UNITS

COMPLETE MOBILISATION SOLUTIONS YOU CAN RELY ON

Everything required to establish a secure, functional and compliant construction site from day one. This works particularly well for a mobilisation section in a construction brochure.

SITE SANITATION

Reliable sanitation solutions designed for construction sites, infrastructure projects and temporary work environments. From standard units to welfare facilities, every solution is supported by delivery, servicing and maintenance across Cyprus.

PORTABLE SANITATION SOLUTIONS FOR ANY PROJECT

STANDARD UNITS

Compact footprint
Ventilated design
Daily site use

SELF CLEANING TOILETS

Automated cleaning system
Reduced servicing requirements
High-traffic areas

AMEA UNITS

Accessible layout
Spacious interior
Compliance support

SHOWERS

On-site hygiene
Workforce welfare
Long-term projects

VIP DOUBLE & SINGLE

Premium finish
Enhanced comfort
Management & visitor use

MALE URINALS

Fast access
High capacity
Reduced waiting times

WASH BASINS

Accessible layout
Spacious interior
Compliance support

FEMALE URINALS

Efficient layout
High-capacity sites
Improved user flow

From long-term infrastructure projects to short-term site works, our portable sanitation range is designed to support workforce welfare, site compliance and day-to-day convenience. With delivery, positioning, servicing and maintenance available across Cyprus, every unit is kept ready for continuous use in demanding construction environments.

ACCESS, SCAFFOLDING & FORMWORK SOLUTIONS

Safe access systems, working platforms and structural support solutions designed for construction, maintenance and infrastructure projects. From façade access and stair towers to suspended platforms and formwork systems, AP Group provides reliable solutions that help teams work safely and efficiently at height.

SAFE ACCESS, STRONG SUPPORT, SOLID FOUNDATIONS

STAIRCASE ACCESS

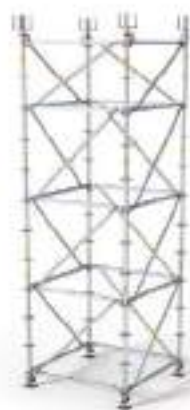

Safe vertical access across multiple working levels.

FACADE & ACCESS SCAFFOLDING

Systems for construction, maintenance and restoration projects with both modular and frame options available.

SUPPORT SCAFFOLDING

Heavy-duty structures designed for temporary load-bearing applications.

SUSPENDED SCAFFOLDS

Access solutions for façades and hard-to-reach areas.

SUSPENDED PLATFORMS

Efficient systems for inspection, maintenance and finishing works.

H20 FORMWORK SYSTEMS

Engineered formwork solutions for concrete construction.

Providing safe access, structural support and formwork solutions for construction, maintenance and industrial projects.

LOADING & MATERIAL HANDLING

Safe access systems, working platforms and structural support solutions designed for construction, maintenance and infrastructure projects. From façade access and stair towers to suspended platforms and formwork systems, AP Group provides reliable solutions that help teams work safely and efficiently at height.

MATERIAL HANDLING SOLUTIONS

DOKA LOADING PLATFORMS

Safe transfer of materials between ground level and elevated work areas.

SCAFFOLDING LOADING BAYS

Integrated loading zones for efficient site logistics.

RUBBISH SHOOTS

Integrated loading zones for efficient site logistics.

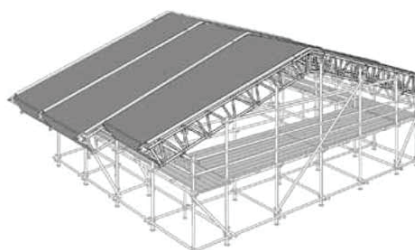

ENCLOSED STRUCTURES

SHRINK WRAP

Temporary weatherproof enclosures for construction and industrial projects.

TEMPORARY ROOFING

Protective roofing systems allowing work to continue in all weather conditions.

WHITE PANEL SYSTEMS

Modular enclosure systems

Supporting efficient site logistics, material handling and temporary protection systems throughout every stage of construction.

MOBILE ACCESS SOLUTIONS

Portable access equipment designed for safe working at height, providing flexibility, rapid deployment and professional performance across construction, maintenance and industrial applications.

ALUMINIUM MOBILE ACCESS TOWERS

RS44

FOLDING TOWERS

RS 51

MOBILE ACCESS TOWERS

MI TOWER

ONE-PERSON TOWERS

PROFESSIONAL LADDERS

ASK FOR THE FULL ALTREX RANGE

A versatile range of professional access solutions designed for safety, stability and performance at every working height.

EQUIPMENT & MACHINERY RENTALS

Our extensive rental fleet includes machinery, concrete equipment, power tools, generators and site support equipment, helping keep projects productive, efficient and on schedule.

TOOLS & MACHINERY FOR YOUR PROJECT

MACHINERY

Excavators, rollers and site equipment.

CONCRETE & MASONRY

Mixing, finishing and cutting solutions.

POWER TOOLS

Professional tools for daily site operations.

AIR EQUIPMENT

Compressed air tools and accessories.

CLEANING EQUIPMENT

Cleaning and maintenance equipment.

LIGHTING & GENERATORS

Reliable power and site illumination.

From concrete works to power generation, cleaning and maintenance, our rental fleet provides dependable equipment solutions to support projects of every size.

SAFETY SYSTEMS

Portable access equipment designed for safe working at height, providing flexibility, rapid deployment and professional performance across construction, maintenance and industrial applications.

COLLECTIVE & PERSONAL PROTECTION

EDGE PROTECTION

Collective fall protection systems.

SAFETY HARNESS

Personal fall arrest equipment.

DEBRIS NETTING

AVAILABLE IN MULTIPLE COLOURS

Reliable safety systems that help protect workers, secure work areas and maintain safer conditions across every stage of construction.

NANOTHERM SOLUTIONS

Advanced thermal insulation and protective coating systems designed to improve energy efficiency, reduce heat transfer and enhance long-term performance across residential, commercial and industrial applications.

ENERGY EFFICIENCY, THERMAL PROTECTION, LONG-TERM PERFORMANCE

FOR WALLS AND ROOFS

100M

200ST

FOR WOODEN SURFACES

300HH

FOR METALIC SURFACES

100F

FOR INDUSTRIAL USE

600HP

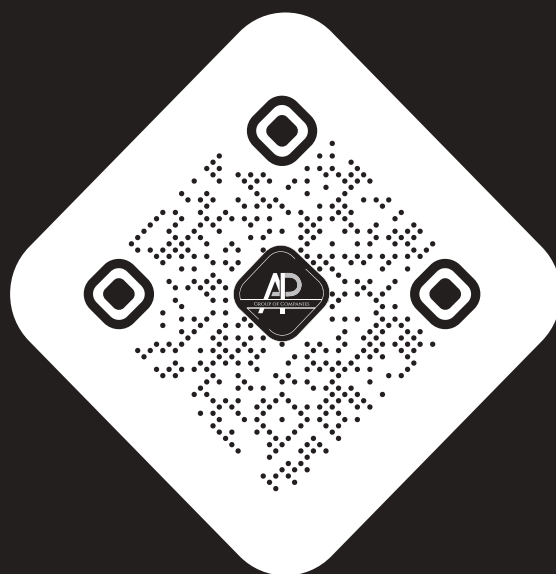

C-COAT

FOR INTERIOR WALLS

Nanotherm Solutions offers advanced thermal insulation and protective coating systems for industrial facilities, commercial buildings, residential properties, metal structures, tanks, pipelines and specialised equipment where energy efficiency and surface protection are essential.
